

# Project 5:

## Evaluate a Google Ads Campaign

# 1. Campaign Approach

- Udacity has launched a campaign to advertise for the Digital Marketing Nanodegree Program
- The campaign is divided into two [ad groups](#), one targeting customers in the Awareness stage and one targeting customers in the Interest stage
- Each ad group uses responsive search ads, with multiple options for the ad headline and description
- When users click on an ad, they are taken to the [overview page](#) for the Digital Marketing Nanodegree Program, where they can click a button to download the program syllabus. This conversion has an estimated value of \$5.

## 2. Marketing Objective

- The campaign's marketing objective is to gather at least 200 conversions (syllabus downloads), with a conversion rate of at least 10%

# Campaign Evaluation

## Evaluate how successful the campaign was, based on the marketing objective

- Feel free to use “bullet points” for your analysis and add as many slides as you need.
- Include the following information in your answer (you can also review Lesson 6 in the SEM course for some additional guidance):
  - The campaign’s return on investment (ROI), including identification of whether the campaign was ROI-positive or ROI-negative
    - $ROI = (total\ conversion\ value - total\ cost) / total\ cost$
  - Identify and calculate at least three relevant KPIs at the campaign, ad group, ad, and keyword level
  - Based on your KPI calculations, identify which three keywords performed the best, and explain your reasoning for the ones you selected
  - Based on your KPI calculations, make an inference about which keywords are subject to higher competition in Google Ads. Explain your reasoning and which KPIs you used to make your hypothesis.
  - An overview statement of how well or not well the campaign performed relative to its marketing objective, supported with evidence

- The campaign's ROI =  $(221 * 5 - 1314) / 1314 = -0.16$  (ROI Negative)

# The keywords performed the best :

<b>Digital marketing certificate</b>
<b>Social media marketing +course</b>
<b>Online marketing +course</b>

- The reason why I choosed these keywords is that it meets our marketing objectives cpc less than \$1.45,cpl less than \$5,CR more than 10% and clicks & conversions is high
- Review slide 19 to see the calculate.

keywords are subject to higher competition in Google Ads because CPC is high this means that people use this keyword a lot so it has a high cost.

	CPC
Best website to learn +digital marketing for free	1.15
Digital marketing basic	0.98
Social media marketing	1.411

Every word of these has a problem if we used it in our campaign

If we used (**Best website to learn +digital marketing for free**) we won't get any leads.

- Also (**Digital marketing basic** and **Social media marketing**) are very public and It does not indicate the course we are promoting

# The campaign performed well or not well?

the campaign performed well relative to its marketing objective as the marketing objective was 200 and the campaign achieved 221 conversions.

But the campaign didn't achieve its goal because conversion rate is less than 10% based on marketing objective.

Also the cost per lead based on marketing objective is \$5 but the amount increases to \$5.9 per lead.

Finally the ROI is negative .

Review slide 10.

So totally we can say that the campaign didn't performed well.

# Recommendations for future campaigns

**Imagine you are tasked with running an improved version of this campaign, with the same marketing objective. What recommendations would you make to improve the campaign, based on your evaluation of its past performance?**

- Provide at least three recommendations
- Feel free to use “bullet points” for your analysis and add as many slides as you need
- The following prompts can help you structure your answer, but feel free to think beyond these as well:
  - Would you focus on certain ad groups, ads, keywords, or keyword match types? If so, which ones and why?
  - Would you change any of your existing ad headlines or descriptions, or add any new ones? What would you change/add and why?
  - Would you change any of your existing keywords or match types, or add any new ones? What would you change/add and why?
  - Would you set up an A/B test, and if so, how would you go about it?

- According to the criteria you used in the analysis, ad group 2 achieved most of the campaign goals(CR more than 10% ,cpc less than \$1.45 and CPL is near by \$5), so it is better to focus on it with the modification of some parts and keywords.
- You should delete the keywords that CPC of it more than \$1.45
- You should delete keywords with high competition Due to the reasons I mentioned in slide 21.
- We also should focus on keywords with CR more than 10%.

- You should delete keywords with low quality.
- In Awareness Digital Marketing Ad Group - Ad #2 we can change headline from “ Digital marketing online course” to “ Digital marketing online course nanodegree)
- Finally you should use A/B test with some edits in the keywords with high quality to get best results in my campaign.
